Since 2009, he has held the role of Director of Youth Sector of the AC Milan, a fruit of his labour and intellectual curiosity; amalgamating a team, as heterogenous as it is efficient, and constantly researching best international practices to create an innovative methodology on the international stage of modern football (CCA).

Filippo Galli continues to expand upon this methodology with a working team, consisting of **Edgardo Zanoli**, **Domenico Gualtieri** and **Silvia Pasolini** who, together, design and manage the technical stage alongside professionals possessing decades of experience in international football.
